

The **Bancore FX SWAP** platform focuses on B2B transactions and asset management transactions where a company or person wishes to transfer via SWIFT or SEPA to a Bancore bank account with the purpose of swapping the amount to a different currency and settling to a bank account, or converting to a crypto currency. You may be faced with one of the following challenges:

- ✔ Moving funds instantly from one bank account to another – especially in emerging markets, and in non-major currencies or crypto coins
- ✔ Obtaining live FX rates for non-major currencies or crypto coins
- ✔ Finding a service provider who offers a predefined end-to-end process for non-major currencies or crypto coins
- ✔ Choosing an FX Swap partner who not only supports non-major currencies and crypto coins, but also guarantees security and offers asset management facilities

Bancore and its FCA-licensed entity BancoRemit Ltd have correspondent banks in Europe for easy transfer of EUR, USD, RMB, and GBP

Having made a deposit with one of our correspondent banks, the depositor immediately receives the correct eValue on our Bancore Switch, and can instantly settle or convert FX into any destination currency and account, including crypto.

For crypto conversions, Bancore can provide access to a totally secure vault solution for asset management purposes

Highlights

- ✔ Instant settlement (T+0) to any bank account or eWallet in Africa, Europe, and major SEA markets
- ✔ Real time FX conversion incl. crypto
- ✔ A virtual prepaid VISA or Mastercard will instantly be issued to the recipient
- ✔ Access to attractive payment services for business clients and their consumers (utility bill payment, prepaid airtime, P2P transfer, and insurance)
- ✔ PCI Level 1 certification offers state-of-the-art security

Whether you need to exchange and settle a transaction at competitive rates, convert your currency into crypto, or prefer Bancore to handle invoice settlements for you cross-border and in any currency – we already have the tested solution ready for you!

Flow of funds

A simple and secure process
